

The Samsung Galaxy Z Fold5 unfolds to an incredible 7.6" display, giving your customer plenty of space to view their work at its best. It's built to last with increased durability. And it's designed to perform with a faster processor and longer-lasting battery. Plus, with multi-window letting users work across three apps simultaneously, they can multi-task like never before. Do they need to take notes and reply to emails while watching a webinar? No problem, they can do it all with the Galaxy Z Fold5. And with the zero-gap hinge, it folds flatter than ever-meaning it slips easily into their pocket or bag. The Galaxy Z Fold5 is the phone that stands out in their hands and helps them stand out in business.

The Galaxy Z Fold5 is the phone that stands out in your customer's hand and helps them stand out in business.
